Professional Background and Experience:

Cory Wade is a gold and platinum, multi-award winning music record producer, recording artist, songwriter, music publisher and recording studio business manager. He is a 45-year veteran of the entertainment industry where he also achieved significant success as a film, TV and radio promotion specialist, TV/radio talk show host personality, writer/producer/commentator with over 850 radio/TV/cable shows logged between 1991 – to present day.

From 1967 to 1973, Wade worked in a variety of inter-related entertainment industry positions i.e., as a professional record promotion specialist for *United Record Distributors* and as the General Manager for the first *Record World Stores* (retail chain outlet 1970-73) located in downtown Chicago. Early in 1968, Cory moved to NYC briefly accepting a position with the prestigious *Willard Alexander Talent Agency*, working with such notable entertainment entities as *Tony Bennett*, *Buddy Rich*, *Dionne Warwick*, *The Guess Who*, *Miles Davis*, *Lannie Kazan* and many other top-rated recording artists/TV/radio performers.

Additionally, from 1969 -1973 Cory was also the Business Manager and National Convention/Entertainment Coordinator for *NATRA (National Association of Radio and Television Artists)*... headquartered in Chicago serving under the direction of its Chief Executive Officer, Mr. Lucky Cordell, respected radio/music personality and General Manager of *WVON*, the most popular black radio station serving the Chicago-metro area from 1966-1975. Wade's duties included daily business management, preparing written presentations for NATRA's public relations contacts with the news media, including radio, television, magazines, newspapers and arranging radio/TV interviews for their annual convention activities/fund raising in support of major black radio/TV entertainment personalities performing at NATRA's elaborate yearly conventions.

The year 1970 also found Cory Wade producing the first of his many Gold records, "*Love Jones*," for *20th Century Fox Records (LA)* and the big 'POP' hit..."*Letter From A Teenage Son*" for *Mercury Records*, Chicago. He also produced a number of local artists and started writing/publishing numerous POP, R&B and contemporary songs for local recording artists.

deeply flawed \$45-billion-dollar military project, trying to salvage this powerful weapon for its successful deployment throughout the world in its varying military formats/delivery systems.

With his unique skills in technical writing, Wade was interviewed passing his TOP-SECRET security clearance for this position as Chief Assistant to Dr. James Palmer, a double Ph.D., chosen to head the research and development team assigned to solving guidance problems of the Cruise Missile. In 1990, COMARCO completed its task fixing the problem, ending the program as the company closed down allowing Wade to return to civilian life moving to LA.

From 1991-1998, he and Shirley moved in together co-managing several high-end apartment complexes in the Studio City area of the San Fernando Valley, Los Angeles, serving over 350 luxury family units and a small business office set-up for these properties.

Another move came in early 1999, when Shirley and Cory were hired to manage a large talent-based booking agency in Las Vegas, NV...providing R&B, contemporary and POP music talent to the many famous Casino-Hotel venues located along the exploding Vegas strip during its vast expansion period during the late 80s-early 90s. They were so successful that their attention attracted a wealthy business man who bought out the booking agency—folding it into his growing empire while inviting them moving to Portland, Oregon—where he engaged them and once again they found themselves successfully managing several business enterprises until 2001.

Interested in becoming a non-denominational Minister of the Faith, Wade had begun education classes with the Carmel, CA-based *American Fellowship Church* in 1991, fully completing his Ministerial Degree by December 2001. Part of a pre-arranged plan with his old friend/long-time TV/producing partner, Reverend Michael Woods, he offered him a full-time position by moving to Denver, CO as a wedding officiant, guidance and marriage consular, wedding planner and business partner which he accepted in May 2002. Growing their business, Wade promoted the bustling Blackhawk Casino-Hotel complex just outside Denver where their company cultivated a vast resource for weddings, catering and wedding planning activities among the eight major Casino-Hotel venues serving Denver. Then reutilizing old contacts from his Las Vegas booking agency days, Wade and Woods developed a new market to exploit in the Tunica, MS area where a number of high-end Casino-Hotel venues operated and Wade left Denver in 2005, establishing residency in Walls, MS, a close-by neighboring community to the bustling Tunica Casino Strip, and Cory has been there ever since running the SE division of their business.

In 2014, Woods left Denver to develop a new and growing wedding market in the Tampa/St. Petersburg region of Florida, tiring as Wade did of the cold, wet and snowy conditions in the Denver region. Woods expanded his wedding business to include a full-service catering and liquor supply business to the dozens of emerging venues in this growing area of the country.

Wade is now expected to rejoin Woods in Tampa by mid-year 2017 to grow and expand their mutual business interests. Cory Wade will remain a viable and active partner in the new "*Police Weapons Scanner*" project and business venture now gaining momentum and viability.

Military Background/MOS/Field Experience 1963-1966:

Wade volunteered for active military service in 1963 after having the pleasure of meeting with then President, John F. Kennedy and the First Lady, spending several hours with them during a gala political fundraising event at Chicago's McCormick Place Convention Center (April 1963). Although the President encouraged him to remain in college, Cory felt a higher calling (during the Viet-Nam era-1963), enlisting in the U.S. Army as he began attending a series of advanced educational/vocational specialty schools offered by the U.S. Army to its qualified enlistees.
